CARNIFLORA NEWS

A.B.N. 65 467 893 226

April 2023

Pinguicula lava rock - 'Plant of the Month' by David Colbourn

Welcome to *Carniflora News*, a newsletter produced by the Australasian Carnivorous Plants Society Inc. (AUSCPS) that documents the meetings, news, and events of the Society.

The current committee of the AUSCPS comprises:

COMMITTEE

President - David Colbourn
davecolbourn@gmail.com

Vice President - Robert Little
robertjameslittle@yahoo.com.au

Treasurer - Wesley Fairhall
wesleyfairhall7@gmail.com

Secretary - Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au

General Committee Member - Brendan Hooghuis

DELEGATES

Journal Editor - Dr. Robert Gibson

Sydney Coordinator - Wesley Fairhall
wesleyfairhall7@gmail.com

Newsletter Editor – Glenn Carson
glenncarson@iinet.net.au

Sydney Coordinator- Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au

Public Officer - Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au
0421 271 888

Brisbane Coordinator - Matt Thomas
matt.thomas@coredisabilitynetwork.com.au

Website Manager - Marina Chong

Brisbane Coordinator - Vacant

Social Media Manager - Glen Moss

Canberra Coordinator - Robert Little
robertjameslittle@yahoo.com.au
0402 130 171

Merchandise Manager - David Colbourn
davecolbourn@gmail.com

Canberra Coordinator - Vacant

Events Coordinator - Vacant

Library Manager - Glenn Carson
glenncarson@iinet.net.au

Seed Bank Manager - Marlon Maclean
marlonjamesmaclean@gmail.com

CALENDAR

APRIL

6-8th Apr 2023
14th Apr 2023
14th Apr 2023
15-16th Apr 2023

Carnivorous Plants Competition - The Royal Easter Show, Homebush
AUSCPS meeting - Canberra featuring *Sarracenia leucophylla* and its hybrids
AUSCPS meeting - Sydney featuring *Sarracenia* and *Darlingtonia*
Collectors' Plant Fair - Hawkesbury Race Club, Clarendon

MAY

5th May 2023
12th May 2023

AUSCPS meeting - Canberra featuring Australian *Drosera*
AUSCPS meeting - Sydney featuring *Nepenthes*

JUNE

2nd Jun 2023
9th Jun 2023

AUSCPS meeting - Canberra featuring Australian *Drosera*, *Byblis* and *Drosophyllum*
AUSCPS meeting - Sydney featuring *Cephalotus*, *Heliophora* and Carnivorous Bromeliads

JULY

7th Jul 2023
14th Jul 2023

AUSCPS meeting - Canberra
AUSCPS meeting - Sydney featuring winter growing *Drosera* and *Utricularia*

AUGUST

4th Aug 2023
11th Aug 2023

AUSCPS meeting - Canberra
AUSCPS meeting - Sydney featuring *Drosophyllum*, *Roridula* and perennial *Byblis*

SEPTEMBER

1st Sep 2023
8th Sep 2023

AUSCPS meeting - Canberra
AUSCPS meeting - Sydney featuring Australian native carnivorous plants

OCTOBER

6th Oct 2023
13th Oct 2023

AUSCPS meeting - Canberra
AUSCPS meeting - Sydney featuring *Utricularia* and *Genlisea*

NOVEMBER

3th Nov 2023
10th Nov 2023

AUSCPS meeting - Canberra
AUSCPS meeting - Sydney featuring *Sarracenia*

DECEMBER

2nd Dec 2023
9th Dec 2023

AUSCPS meeting - Canberra
AUSCPS meeting - Sydney - Annual Show

JANUARY

5th Jan 2024
12th Jan 2024

AUSCPS meeting - Canberra
AUSCPS meeting - Sydney featuring *Dionaea* & *Aldrovanda*

FEBRUARY

3rd Feb 2024
10th Feb 2024

AUSCPS meeting - Canberra featuring *Darlingtonia californica* and *Cephalotus follicularis*
AUSCPS meeting - Sydney featuring summer growing *Drosera* and Annual *Byblis*

MARCH

1st Mar 2024
8th Mar 2024

AUSCPS meeting - Canberra featuring *Nepenthes*
AUSCPS meeting - Sydney featuring *Pinguicula*

NEWS

MEMBERSHIP RENEWAL

Membership of the Australasian Carnivorous Plant Society Inc. (AUSCPS) is \$20 per calendar year, or \$35 if you require printed journals with your membership. The AUSCPS is a not for profit organisation that promotes the conservation and cultivation of carnivorous plants in Australia and abroad.

JOIN NOW

Becoming a member of our society offers great benefits such as receiving two editions of our journal, 12 monthly newsletters, seed subsidies, discounts on merchandise, access to our free library, and the ability to sell plants at fairs and events attended by the Society. Simply fill out the membership form included in our newsletter and follow the payment instructions.

ARTICLES FOR CARNIFLORA AUSTRALIS

The Carniflora Australis is looking for article contributions. If you have an idea, you can submit it and we will assist in refining it for publication.

You may like to write about the following:

- * particular cultivation techniques,
- * field trips to see carnivorous plants,
- * propagation techniques,
- * your favourite plant and why,
- * how your collection started, and
- * feeding and conditions.

SEEDBANK

The current list of seeds in the Seedbank is very large. To make it easier, it is recommended to order seeds from the Seedbank via email instead of bringing the entire seed collection to every meeting. Once payment has been received, the ordered seeds can be brought to the meetings or shipped as usual.

THE COLLECTORS' PLANT FAIR

The Collectors' Plant Fair will be on the 15th - 16th April, 2023 at the Hawkesbury Race Club, Clarendon, NSW. Please visit www.collectorsplantfair.com.au for more information. This is wonderful chance to both give back to the carnivorous plants community by volunteering and potentially earn some money through plant sales.

MEETINGS

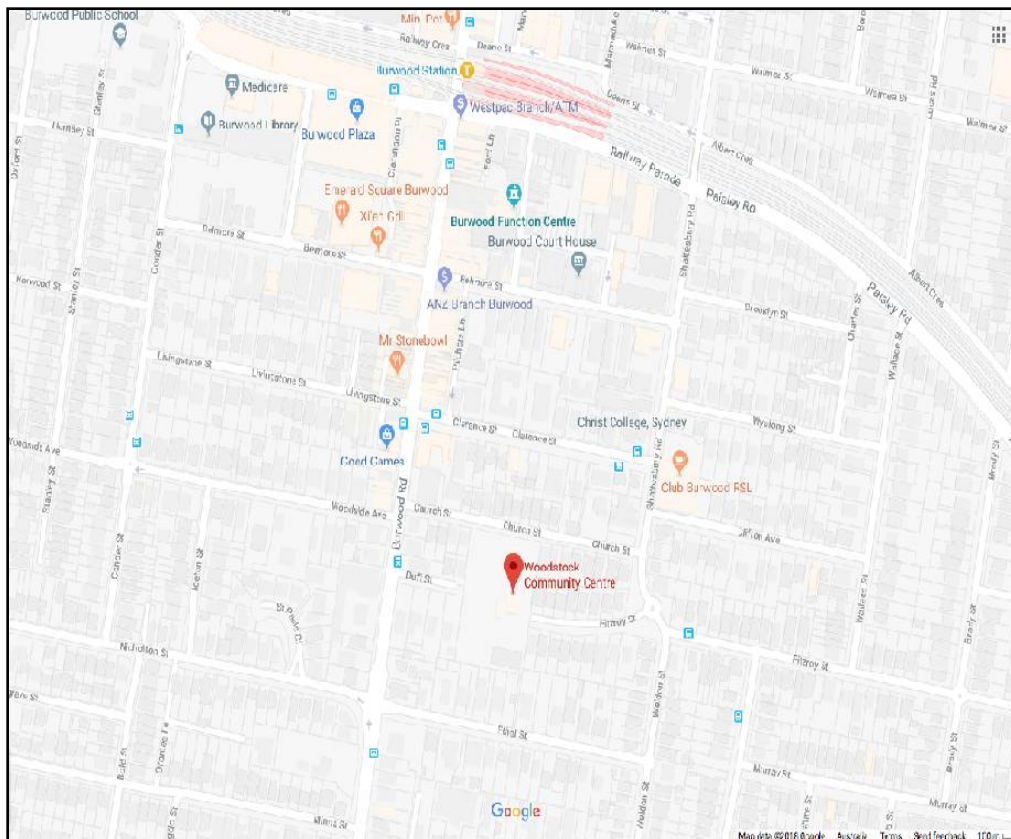

The Australasian Carnivorous Plant Society Inc. holds meetings in New South Wales and the Australian Capital Territory. Meetings are a great place for members and friends to socialise, share experiences, buy, swap, and sell carnivorous plants.

Meetings are friendly and informative and cater for the experienced grower or new collector to the hobby. Occasionally, we have guest presenters who will give a talk on their adventures discovering carnivorous plants in the wild, or how best to cultivate them in your environment.

We hope you can attend one of our meetings and enjoy the fellowship of other enthusiasts for these wonderful plants.

SYDNEY

The Sydney chapter of the AUSCPS meets at 7:30 pm on the second Friday of each month at the Woodstock Community Centre, Church Street, Burwood. Free parking is available off Fitzroy Street. Public transport is available with Burwood train station about 1 kilometre to the north. Call Kirk on 0421 271 888 or David on 0410 643 531 if you have any questions about attending this meeting.

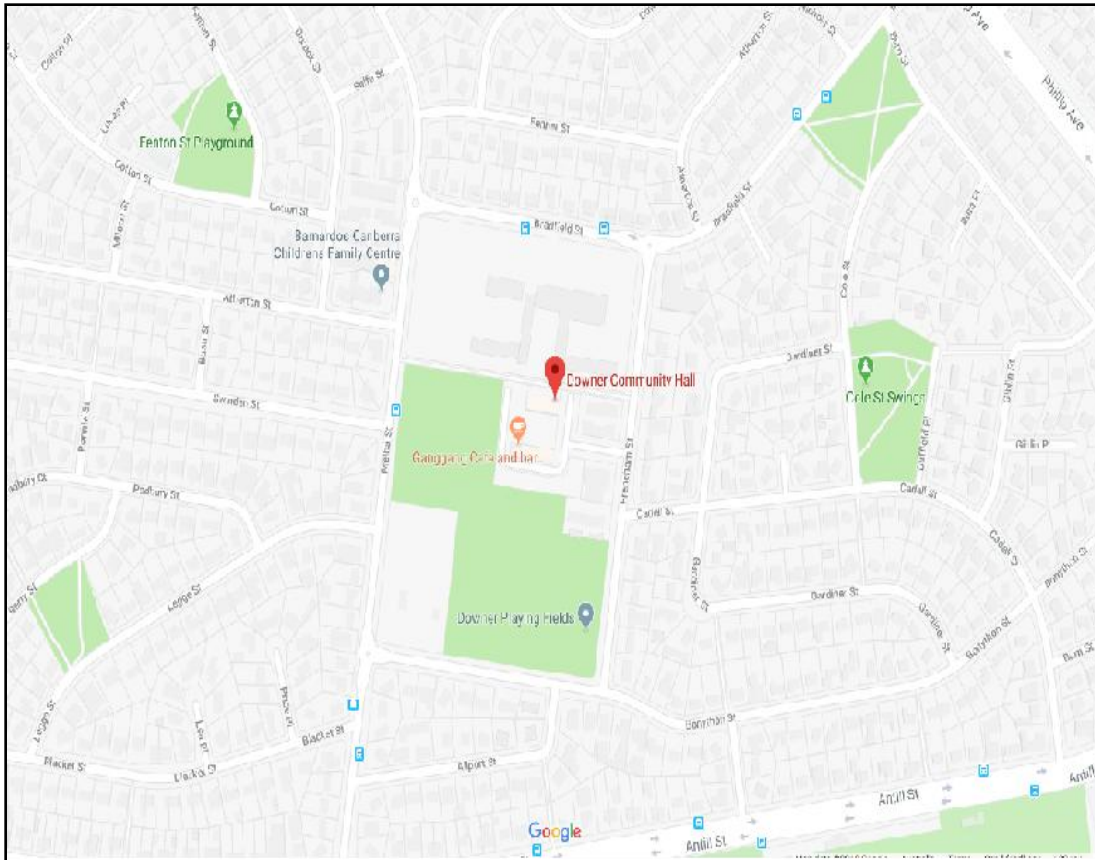

BRISBANE

The Brisbane chapter of the AUSCPS will hopefully resume meeting again soon. Please contact the coordinator, Matt Thomas at matt.thomas@coredisabilitynetwork.com.au

CANBERRA

The Canberra chapter of the AUSCPS meets at 7:30 pm on the first Friday of each month at the Downer Community Hall, Frencham Place, Downer, A.C.T. Call Robert if you have any questions about attending this meeting on 0402 130 171.

AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC – CANBERRA CHAPTER

MINUTES FRIDAY, 3rd of MARCH, 2023

AT

DOWNER COMMUNITY HALL, FRENCHAM PLACE, DICKSON

The meeting opened at 19:30

PRESENT: There were 16 members in attendance.

The theme of the meeting was *Nepenthes*.

Plants shown were:

N Bongso

N Maxima wavy leaf

N ventricosa (maxima x spectabilis)

N maxima dark x truncata

N bicalcarata

N Diana (ventricosa x sibuyanensis) x red ampullaria

N [(lowii x veitchii) x boschiana,

N veitchii (m) – squat red, striped peristome

N gothica

N sanguinea

N ventricosa

2 x N “unknown”

N truncata x Vogellii

Rod Kruger

Ross Rowe

Barry Bradshaw

Bastien

Ross Hetherington

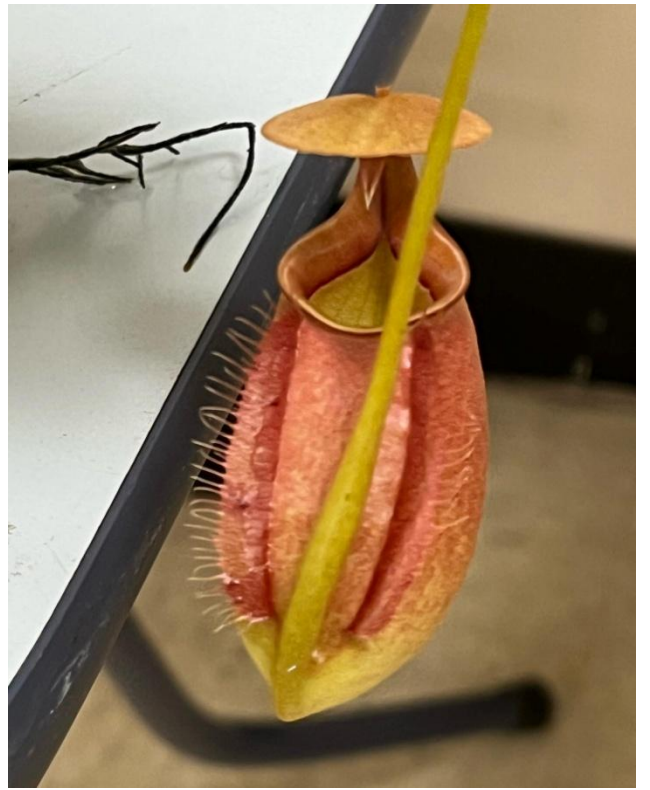

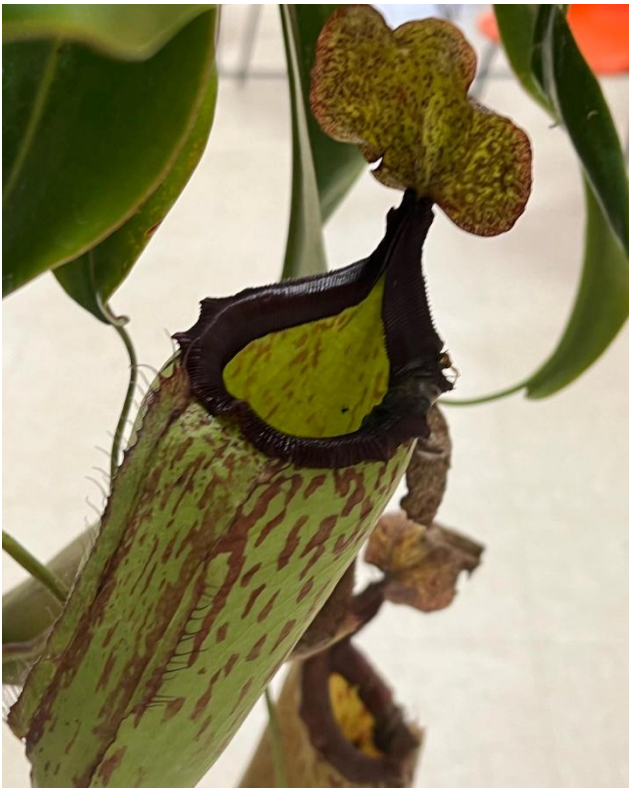

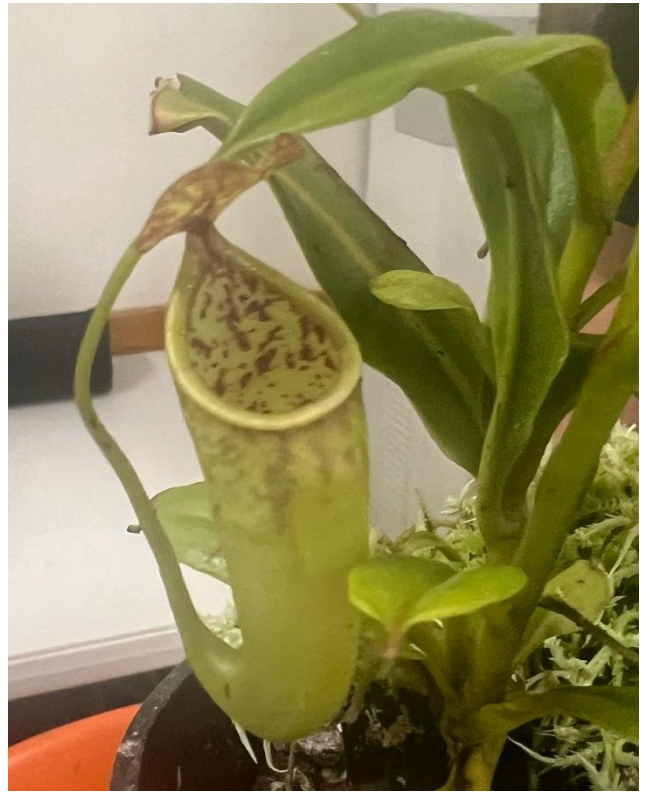

Cassie

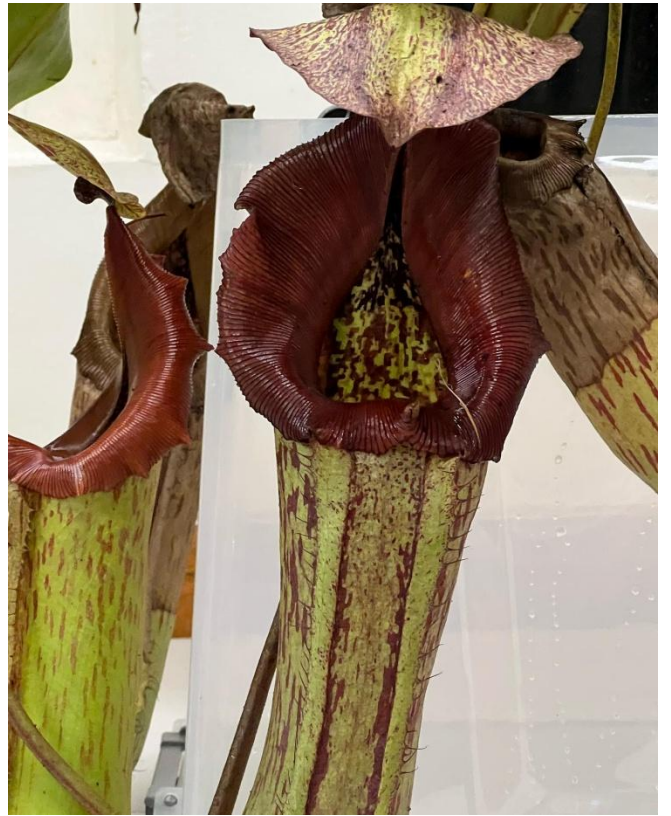

Rod Kruger and Bastien Small drew for plant of the month. As always the generous Rod Kruger had brought in two *Nepenthes* as prizes so Barry Bradshaw, technically in third place, got a prize.

The meeting closed at approximately 9.30pm.

Next month's theme will be *Sarracenia leucophylla* and its hybrids.

MINUTES FRIDAY, 10TH of MARCH, 2023

AT

WOODSTOCK COMMUNITY CENTRE, CHURCH STREET, BURWOOD

The meeting opened at 19:55.

PRESENT

There were 20 members in attendance.

APOLOGIES

None

MINUTES OF PREVIOUS MEETING

The minutes of the previous meeting of 10th February 2023 were tabled at this meeting. But will be at the following meeting so they may be accepted as a true record of that event.

Kirk Confirmed
David C. Seconded

BUSINESS ARISING / GENERAL BUSINESS

- 1) Great news! The March edition of Carniflora Australis is almost complete. Links and printed journals will be sent out soon.
- 2) The proposed updated constitution for the society, which included splitting the role of the membership secretary and changing how the society can undertake financial transactions, was included in the February Newsletter. The new constitution was voted upon by members and passed unanimously with no opposing votes.
- 3) The Royal Easter Show will have a carnivorous plant competition on April 6th and 7th with 8 categories. Entries closed on March 1st and participants were allowed to enter as many plants as they wanted. More information is available in the March newsletter. Marlon Maclean will give a talk at the RES.
- 4) The Collectors' Plant Fair at Clarendon is scheduled for April 15th and 16th. The Society has been informed that their stall area will be smaller this year, so they will pre-allocate space to members selling plants. This will be discussed at the April meeting. The Society's items, such as the cash box, are currently with Fuzzy and will be brought to the April meeting for others to hold.
- 5) The Southern Highlands Botanical Garden Autumn Plant Fair is taking place on April 22nd and 23rd and the society has been invited to participate. The event may be too far for Sydney-based members but it may interest members in the Canberra chapter. Details of the event have been forwarded to Robert Little by Fuzzy.

- 6) The Wollondilly Shire Council is organising a plant fair and garden expo on October 30th at Picton Botanic Gardens, Regreme Road, Picton NSW. Fuzzy has shared the event details in the society's Gmail account under 'Events' folder. The society is considering attending next year since many more *Sarracenia* plants will be in good condition by that time. Various nods indicated that no one opposed the idea.
- 7) The Carnivorous Plant Society in London has invited members of the Australian Carnivorous Plant Society to participate in a questionnaire to develop growing tips for carnivorous plants. The questionnaire is being organised by Ms. Mollie Brown, and her contact email is mollie@horticulture.co.uk. More information about the survey's organisation is available at <http://www.horticulture.co.uk>.
- 8) Thanks to Jeff Williams who has generously offered to give a talk about carnivorous plants to the Willoughby Garden Club and other interested individuals.
- 9) Jeffrey Williams has requested a power point presentation from the Society to give talks at various plant Societies. Kirk has made the presentation available through Google Docs.
- 10) The Annual Show has been rescheduled from Friday afternoon to Saturday, December 9th.
- 11) Wesley needs to follow up with Robert Little regarding electronic funds transfer options now that the new constitution has been passed.

CORRESPONDENCE

INCOMING:

- 1) The current 'Our Garden' magazine issue.
- 2) Two new memberships.
- 3) The PO Box account.
- 4) The New England Garden Festival has invited our society to man a stall at their event in November 18th and 19th, 2023.

OUTGOING:

- 1) Send membership form .pdf to Jeff Williams so he can hand out during his talks.

TREASURER'S REPORT

There's \$7,600+ in the bank, plus a small amount in the frog, mostly coin.

MEMBERSHIP REPORT

There are presently 69 members for 2023 with three more who joined or renewed during the meeting, bringing the total to 72.

PLANT OF THE MONTH

The theme for February's 'Plant of the Month Competition' is *Pinguicula*.

Members entered the following plants:

- | | |
|--|-----|
| 1. <i>Pinguicula gigantea x moctezumae</i> – | (0) |
| 2. <i>Pinguicula gigantea</i> | (4) |
| 3. <i>Pinguicula primuliflora</i> | (0) |
| 4. <i>Pinguicula</i> growing cells in vertical garden | (2) |
| 5. <i>Pinguicula rock</i> – <i>P moranensis</i> , <i>Pagnata x hemiepiphytica</i> , <i>P emarginata x moctezumae</i> | (1) |

- | | |
|--|------------|
| 6. <i>Pinguicula emarginata</i> x <i>Weser</i> | (5) Dave C |
| 7. <i>P agnata</i> x <i>moctezumae</i> | (0) |
| 8. <i>Pinguicula rock</i> – <i>P gigantea</i> | (11) |

The winner of 'Plant of the Month' was: ***Pinguicula rock*** grown by Dave Colbourn. Photo on front page.

Grow wet. Dilute fertiliser apply once a month.

David provided instructions on how to pollinate and cross *Pinguicula* plants to increase their diversity. He suggests using a toothpick and labelling crosses with bread-tags, and notes that not all crosses will be successful. The seed should be sown on a perlite and vermiculite mix and kept wet, but viability may vary and seed may not remain viable for long. Results may take up to a week to appear and the seed should be ripe in about 30 days.

Dave also described a method for creating a vertical garden using sphagnum moss as a growing medium and run drippers to water the plants. This method requires similar conditions to those needed for *Nepenthes*.

Other plants:
None

Tips on growing Mexican *Pinguicula*

.

Water by misting spray.
Grow in a mix of perlite and vermiculite OR in thin peaty sand spread in cracks in a limestone rock. Limestone rocks can be bought from aquarium shops, chose the rocks with lots of holes and a flat bottom. Place limestone rocks in a shallow saucer of water.

The meeting closed at 20:40. The next meeting will be on Friday, 14th of April and the next 'Plant of the Month' will be *Darlingtonia* & *Sarracenia*.

IN THE GREENHOUSE

ALDROVANDA

Plants are in active growth. Consider adding fresh decomposing leaf litter to the water to add CO₂. Keep frogs and tadpoles out of the water, as they may eat the plants. Plants will divide rapidly. Plants may be grown in shade to reduce algae growth.

BROCCHINIA / CATOPSIS

Maintain high light levels and humidity. Water from above. Feed with 1/4 strength urea free liquid fertiliser every 4 weeks or so.

BYBLIS

Byblis gigantea and *B. lamellata* are naturally dormant over summer but may be kept in growth with constant soil moisture. Keep the soil moist to wet. Flowering continues. Harvest seed.

The northern annual species of *Byblis* will now be in active growth. Growth rates will be higher in hot and humid conditions. Cross pollinate the flowers to ensure seed set.

Growth rates for all species of *Byblis* may be accelerated with increased prey capture or fertilisation. Place some rotting fruit around the plants or sprinkle granulated fish food onto the leaves. Pollinate the flowers using the "buzz" technique.

CEPHALOTUS

Keep the soil moist but well drained. Avoid fungal problems by keeping good air movement around the plants.

DARLINGTONIA

Darlingtonia will be in active growth. Stolons will begin growing under the substrate. Watch out for hot days. Place your plants in more shade or consider bringing them indoors during hot weather. Night temperatures are high so it is imperative that the roots are kept cool.

DIONAEA

All VFTs should be in active growth. Many varieties will begin to produce upright petioles and traps, a strategy to compete with surrounding vegetation. Keep well watered.

DROSERA

Tuberous *Drosera* are dormant and will soon break dormancy. Ensure your repotting is done this month. Keep the pots barely moist.

Pygmy *Drosera* are dormant over summer and survive with the production of white stipule buds to reflect the sun and absorb the morning dew. Plants may be kept moister to keep in active growth.

Other Winter growing species such as *D. cistiflora* and *D. pauciflora* are still dormant. Reduce watering and keep the pots barely moist.

Tropical and subtropical species will be in full growth and flower. Keep the soil very moist. Collect seed and sow onto a peat based media.

Temperate *Drosera* such as *D. filiformis*, *D. intermedia* and *D. rotundifolia* will be in active growth and flower. Seed pods will be maturing, harvest seed.

DROSOPHYLLUM

Drosophyllum will be in active growth. Flowering commences in spring and continues into summer. Flowers are self fertile. Harvest seed. Avoid hot and humid conditions. Growth rates increase with increased prey capture.

GENLISEA

Genlisea should be in flower and active growth. Keep the water levels high with these species.

HELIAMPHORA

Keep plants in a bright and very humid location. Avoid temperatures over 30°C. Fertilise with a diluted foliar application of urea free fertiliser every 2-4 weeks.

NEPENTHES

Some *Nepenthes* struggle over the Australian summer. Aim to keep the lowland plants warm to hot and in high humidity. Highland species require cooler nights. Mist in the afternoon to reduce air temperatures and increase humidity.

PINGUICULA

Mexican species/hybrids are in active growth. Keep the soil moist and humidity high.

Warm temperate species such as *P. primuliflora* and *P. lusitanica* will continue growth. Keep the water up to *P. primuliflora* and take leaf cuttings.

RORIDULA

Roridula is in active growth. Flowering ends. Harvest any seed. Keep the soil moist and place in a very bright and airy situation with low humidity.

SARRACENIA

All *Sarracenia* species/hybrids are in active growth. Keep well watered and in full sun. *S. flava* and *S. oreophila* will produce non-carnivorous phyllodia. *S. leucophylla* and *S. rubra* will produce larger and more upright pitchers. They look their best in autumn.

UTRICULARIA

Most terrestrial *Utricularia* will be in active growth and flower. Keep moist to wet.

Aquatic *Utricularia* are in active growth. Keep algae under control.

Winter growing species, such as *U. multifida* and *U. menziesii* are still dormant. Keep the soil barely moist.

Tropical *Utricularia* - Maintain higher temperatures, humidity and air movement. Keep soils moist.

MERCHANDISE

CONTACT CARDS

The Society now produces a business sized card with all our contact details. The cards are free and available for collection from our meetings. Members and visitors are welcome to take a handful of cards to distribute to other Carnivorous Plant enthusiasts.

BASEBALL CAPS

Baseball caps printed with our logo on the front and name on the back are now available on order for \$35 each. To order, contact David at auscps@gmail.com

T-SHIRTS

T-shirts printed with our logo on the front are available for \$35 each. These T-Shirts are a great way to promote and support the Society at functions and shows. To order the T-Shirts, contact David at auscps@gmail.com.

SMOKE DISCS

Smoke discs aid in the germination of difficult species of *Drosera*, *Byblis* etc., that often germinate after a bushfire. The discs are available for \$5.00 each at meetings or contact Marlon Maclean at marlonjamesmaclean@gmail.com

SEED BANK

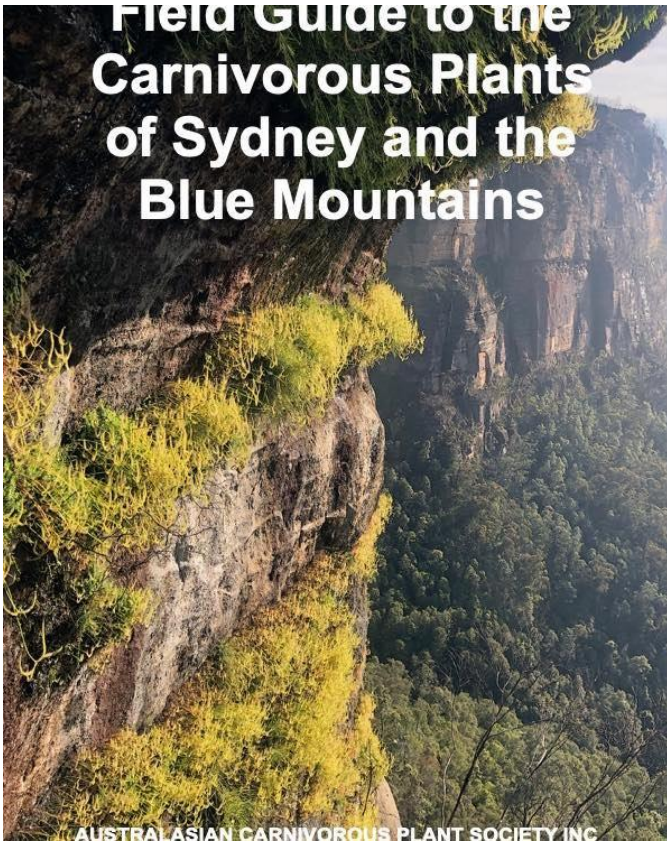

Seed packets are \$1 each for members. Donations of seed are welcome. Please supply location data if available. Your Seed Bank Manager is Marlon Maclean at marlonjamesmaclean@gmail.com. The seed bank list is contained at the end of this newsletter.

POTTING MIXES

The Society is now selling assorted bags of Carnivorous Plant potting mix to members and friends. We have quality *Sphagnum* Peat Moss, Mexican *Pinguicula*, *Nepenthes* and *Sarracenia* mixes. Each bag is \$5 and may be purchased at meetings or events.

Field Guide to the Carnivorous Plants of Sydney and the Blue Mountains

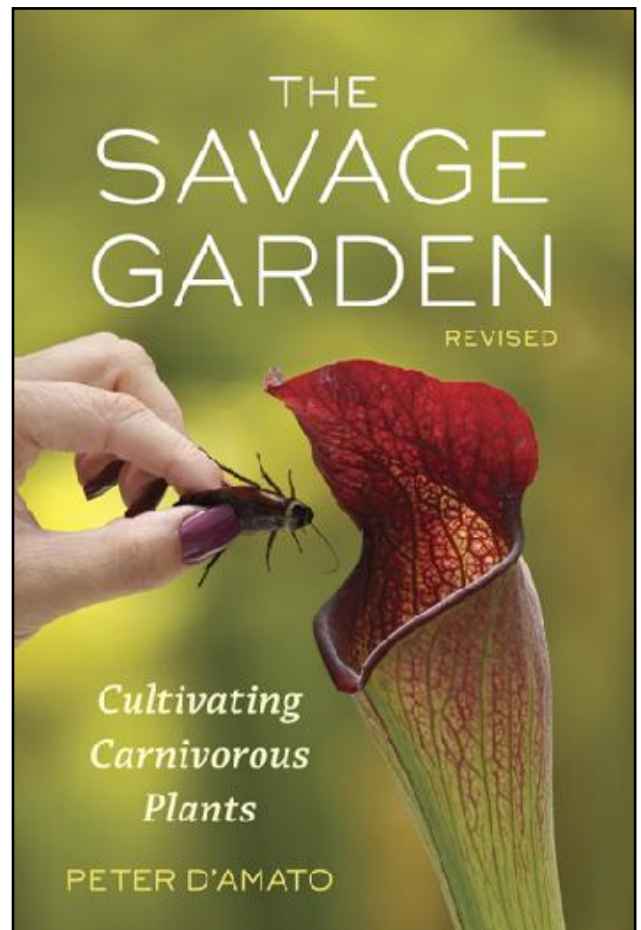

FIELD GUIDE TO THE CARNIVOROUS PLANTS OF SYDNEY AND THE BLUE MOUNTAINS

The Sydney and Blue Mountains Field Guide is available now for \$10 (non-members) on ebay and at meetings in both Canberra and Sydney

THE SAVAGE GARDEN

The Society is also selling copies of the second edition of "The Savage Garden" for members and friends to purchase. The Savage Garden, by Peter D'Amato, is one of the best books dedicated to the cultivation of Carnivorous Plants, covering more than 300 species, gloriously illustrated with more than 200 colour photographs over 374 pages.

We are offering this book to members for \$35 and to non-members for \$40. The books may be purchased from Society meetings and events, or via PayPal and posted to anywhere in Australia for \$12. Contact David at auscps@gmail.com to order.
